

News and gossip from the Wood Lane Reunion 2006

The evening

Once again we had nearly 50 of you on the reunion night, and that included four who came along for the first time (Alf Reading; Dennis Nash; Pedro Perez and Elizabeth Ness). The early part was rather noisy, probably due to a combination of the good weather, the slightly later time of year and some refugees from the Test Match at Lords. We will try to keep it mind for the future.

The Film Society

Some of you who talked with Tom Ruben will have found out that he recently completed the final chapter of "The History of the Film Society", covering its entire life from 1954 to 1987. He originally wrote it with Ted Morrison years ago for the Bush Telegraph.

Our thanks to Tom for this terrific effort.

People news

Those who were concerned about **Peter Walter's wife Jan** will be happy to know that she is on the mend. She is out of hospital now and convalescing at home. All of her 'vital signs' are as they should be and she is gradually getting over nearly 3 weeks in hospital. That she had had encephalitis was confirmed by the various scans that were made of her in hospital, the exact cause of the encephalitis was not identified, however. The general consensus was that it was caused by a virus, which was not identified by the many tests carried out.

Michael Fox told us that **Dr Maurice Rothman** (formerly Head of Mathematics) is seriously ill. He will keep us informed of any developments.

Yvonne Ferrier was one who sent apologies. She is still living happily in near Cadiz in Southern Spain, and about 3 weeks ago she and Geoff were married in Gibraltar. She will try to get over for 2007.
